## **Liothyronine (T3) SR Capsules**

### **Medication:**

Liothyronine (T3) SR Capsules

### **Use:**

Take the drug same time each day on empty stomach, preferably 30 to 60 minutes before breakfast. Some patients do not convert T4 to the more active T3 so patients need to supplement with T3.

### **Side Effects:**

Nervousness; rapid heart rate; diarrhea; chest pain; difficulty breathing; sweating; headache; irregular heartbeat  
Difficulty falling asleep; shakiness; menstrual irregularities; stomach discomfort or pain; pain; fever; increased appetite; muscle pain; weight loss.

### **Directions:**

Do not switch brands without your doctor's approval.

**For any questions, either talk to your healthcare provider or your pharmacist.**
